

BMG Seltec Complements Your ERP/ Accounting System

No general purpose accounting or ERP system, regardless of how sophisticated, is capable of meeting the unique information needs and operating requirements of bulk construction material producers. That is why leading suppliers to this industry, such as Oracle/PeopleSoft and Dexter+Chaney, have selected BMG Seltec as their preferred alliance partner to round out their solution.

Simplified Integration with ERP or Accounting Systems Reduces Cost and Risk

BMG Seltec can interface with any financial or ERP system, from tier-1 systems, such as Oracle/PeopleSoft or SAP, to mid-sized industry-specific applications like Viewpoint, Dexter+Chaney, and many others. BMG Seltec has also created interfaces to basic accounting packages like Quickbooks and Peachtree.

The seamless connectivity BMG Seltec provides between my plants and my office gives me and my customer's confidence in the accuracy of information from each of the plants.

I know I can count on BMG Seltec to provide the best quality and highest level of service.

Wayne Evans
Sr. Vice President:
Asphalt Operations
Hubbard Construction Company

No need to hire an expensive consultant to re-invent what BMG Seltec already has. The cost savings on consulting and customization fees alone may pay for your BMG Seltec solution, while

- o Yielding greater productivity improvement
- o Eliminating the cost of future integration and re-customization
- o Allowing you to take advantage of ongoing support and feature enhancements coming from BMG Seltec – enhancements designed specifically for companies like yours.

Chosen by Oracle/PeopleSoft as its Alliance Partner for Servicing Aggregate, Asphalt and Concrete Producers

Oracle/PeopleSoft, the leading supplier of ERP financial systems to construction materials producers, has recognized BMG Seltec as the vendor providing the best complementary systems and integration services for this industry. As a result, Oracle/PeopleSoft has selected BMG Seltec as an industry-specific Alliance Partner. For more information about this selection, go to Oracle/PeopleSoft's website ([www. peoplesoft.com](http://www.peoplesoft.com)) and select "partners."
